

## Contact Lens Fitting (CLF) benefit

The Contact Lens Fitting (CLF) is a specific exam for the proper fitting of contact lenses. Superior Vision offers a stand-alone CLF benefit that enables members to maximize the value of their contact lens allowance.

### Two types of fittings

#### Standard

This fitting is for an existing contact lens user who wears disposable, daily wear, or extended wear contact lenses. It includes two follow-up visits within three months. The standard CLF is covered in full following any applicable copays.

#### Specialty

This fitting is for a member who has never worn contact lenses or who requires a more complex fit for toric, gas permeable, or multi-focal contact lenses. It includes two follow-up visits within three months. The specialty CLF is covered up to a \$50 retail allowance, following any applicable copays.

### The value of the Contact Lens Fitting benefit

The value of the contact lens allowance is due to the fact that the CLF and/or copays are not deducted from the allowance. Many other plans deduct these costs from the overall contact lens allowance.

Additionally, a member may be fitted for contact lenses without utilizing the contact lens material benefit and may still receive a covered pair of glasses during the same benefit period.

### CLF value and out-of-pocket comparison\*

Examples are based on the following assumptions:

- Annual contact lenses = \$120
- Contact lens fitting = \$70
- Contact lens allowance = \$120

	<b>Superior Vision plan (with CLF benefit)</b>	<b>Other vision plan (without CLF exam benefit)</b>
Eyewear allowance	\$120	\$120
Standard CLF exam (covered in full, following copay)	-\$0	-\$70
<b>Allowance left for contacts</b>	<b>\$120</b>	<b>\$50</b>
